1-wire clamp splicing connector, double-sided; for any 0.75-4mm² wire; IEC 250V/32A; bag of 10 pcs.

Marka: **Orno** | Symbol: **OR-SZ-8021/1/10** | Ean: **5908254841248**

PRODUCT DESCRIPTION

The ORNO brand offers high-quality installation accessories that are well-known to professional users associated with electrical and connecting technology. Installation connectors are solutions that combine the newest trends and technologies with the appropriate quality of materials used.

Among the products offered is a 1-terminal installation connector. It is a double-sided connector designed to connect wires from 0.75 to 4mm² and to operate with a current rating of 250V/32A. Made of durable and

ORNO GROUP Sp. z o. o. All rights reserved.

non-flammable plastic, with a transparent housing for easy wire placement. The housing also has a printed graduation for conveniently stripping the wire to the correct length and inserting it to the correct depth.

At the top of each double-sided connector are two opposite levers that crimp and stabilize the wires in the right places. The levers are made of resistant and somewhat flexible material so that they can withstand repeated opening.

The products are packed in bags of 10 pieces, and the ORNO brand also offers other variants of quick-connectors.

TECHNICAL DATA

General information:

Number of clamp positions:	2
Nominal cross section [mm▯]:	0,75 - 4
With operation lever:	tak
Colour:	Niebieski
Transparent:	tak
Nominal voltage [V]:	250
Nominal current [A]:	32
Suitable for solid core:	tak
Suitable for flexible core:	tak
Suitable for multi-wire core:	tak
Packing:	Woreczek
Quantity:	10
