Bulb holder adapter GU10/E27

Marka: **Virone** | Symbol: **LH/GU10/E27-23** | Ean: **5908254842498**

PRODUCT DESCRIPTION

The GU10/E27 light source adapter is a device that allows you to adapt your lighting from one type of bulb socket to another. The GU10 socket is used for halogen and LED lamps, while the E27 socket is more common and used for traditional incandescent lamps and some LED lamps.

The adapter takes the form of a short connector which has one socket for connection to a GU10 light and a second socket to which a bulb with an E27 thread can be connected. With this product, we can fit a bulb with
